FOREWORD

One of the primary objectives of the Department of Defense (DOD is to acquire weapons and material which fully meet qualitative, quantitative, and delivery requirements—at the lowest over-all cost. To achieve this objective, maximum emphasis is placed on full and free competition, with equal opportunity to all interested qualified suppliers to compete for Defense contracts.

The Department of Defense Military Departments and Defense Agencies have Contracting Offices located throughout the United States. Each Department and Agency has an office of the Director of Small and Disadvantaged Business Utilization. They also have Small and Disadvantaged Business Utilization Specialists at each of their procurement and contract administration offices to assist small businesses, small disadvantaged businesses, women-owned small businesses and labor surplus area firms to market their products and services with the DOD. These Specialists can provide information and guidance on (1) Defense procurement procedures, (2) how to be placed on the bidders' mailing list, and (3) identification of both prime and subcontract opportunities.

The location of Army, Navy, Air Force, Defense Logistics Agency, and other DOD procurement and contract administration offices and the names of the Small and Disadvantaged Business Utilization Specialists are listed in this pamphlet by state and city, alphabetically.

Some of the procurement offices listed in this pamphlet purchase only those supplies and services that are required to meet local needs. Others have the broader assignment of central procurement responsibility for particular commodity requirements of one or more of the military departments on a national or global basis.

THE DOD BASIC PROGRAMS FOR SMALL BUSINESS, SMALL DISADVANTAGED BUSINESS, WOMEN-OWNED SMALL BUSINESS AND LABOR SURPLUS AREA FIRMS

In the conduct of national and defense policies for small business, small disadvantaged business, women-owned small business, and labor surplus areas, the DOD has developed programs utilized by the Army, Navy, Air Force, and Defense Logistics Agency as follows:

1. Source Identification

Source identification is concerned with generating new small business, small disadvantaged business, women-owned small business, and labor surplus area business sources of supply for DOD requirements. It involves locating qualified small business, small disadvantaged business, women-owned business and labor surplus area business firms and assisting them to get listed on the appropriate DOD activities' bidders' mailing lists. Thereafter, they will receive Invitations for Bid (IFB) and Requests for Proposals (RFP) when the activity buys items or services of the type furnished by the particular business.

The Small Business Administration (SBA) assists the DOD by providing additional sources developed through their many programs and contacts with small business, small disadvantaged business, women-owned small business and labor surplus area firms. The SBA has as part of their active outreach effort developed the Procurement Automated Source System (PASS). This program was established to improve the potential for government contract and subcontract opportunities for small firms and to be responsive to the requests of government agencies and major corporations for profiles of potential bidders.

2. **Small Business and Labor Surplus Preferences**

Under certain conditions, the buying activity is authorized to set aside procurements, either in whole or in part, for competition restricted to small business and/or labor surplus area concerns. In general, these set-asides can only be made when there are at least two qualified small or labor surplus area concerns to assure adequate competition.

3. **Small Disadvantaged Business Preference Program (8(a))**

The SBA is authorized to enter into contracts with federal agencies and to subcontract performance of those contracts to small, socially and economically disadvantaged businesses. The DOD participates in this program by offering requirements to the SBA for subcontracting with firms approved by the SBA for participation in its Section 8(a) Business Development Program. For additional information about the 8(a) program, contact your nearest SBA regional office. A listing of these offices is provided on Page 55 in this publication.

4. **Subcontracting**

The DOD desires that its prime contractors make the maximum use possible of small business, small disadvantaged business, women-owned small business, and labor surplus area firms, as subcontractors. The DOD inserts a special clause in contracts with large business concerns that meet certain conditions (i.e., dollar value, potential for subcontracting, etc.) which require the large business primes to establish a plan that is designed to maximize the participation of small and small disadvantaged business concerns as subcontractors. DOD and SBA personnel make periodic reviews at the contractors' plants to check compliance with this program. Annually, the DOD publishes a directory titled *Small Business Subcontracting Directory* which lists alphabetically by state all the prime contractors having such clauses in their contracts. This directory details prime contractors by corporate title, operating division and address, to include the name and telephone number of the Small Business Liaison Officer. This directory may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

5. **Procurement Conferences**

These conferences are held in conjunction with other federal agencies in order to provide an opportunity for businesses to meet with procurement specialists from federal military and civilian agencies and federal prime contractors. Procurement specialists inform businesses on (1) federal procurement and contracting processes; (2) aides and services of government to business; and (3) opportunities to sell to federal agencies and prime contractors.

6. **Counseling and Assistance**

Each DOD procurement office has the responsibility to counsel and assist small business, small disadvantaged business, small women-owned business, and labor surplus area business firms with any problem they may have in understanding procurement regulations and practices; determining the appropriate buyer agency for their product; or acquiring pertinent data on present or future DOD procurements, etc. This function is normally performed by the DOD Small and Disadvantaged Business Utilization Specialists listed in this publication.

SELLING TO THE MILITARY

The major DOD procurement offices and the products and services they purchase are set forth in the publication "SELLING TO THE MILITARY." This publication may be

purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

BIDDERS MAILING LISTS

A business firm seeking to participate in Defense procurement should inform military procurement offices of products or services it has to offer and request that the firm be placed on appropriate bidders' mailing lists. Copies of Standard Form 129, "Bidders' Mailing List Application," are available at most federal agency procurement offices. A copy of this form is included in the publication "Selling to the Military."

Each procurement office maintains lists of firms that are capable of supplying products or services purchased by the office. Firms on the bidders' list are automatically supplied "Invitations for Bid" or "Requests for Proposals" on new procurements.

Normally the submission of Standard Form 129, "Bidder's Mailing List Application" with complete and exact information about the products or services on which a firm wished to bid is sufficient to secure placement on a procurement office bidder's list. However, in some cases, procurement offices may require that additional information be supplied.

COMMERCE BUSINESS DAILY

The "COMMERCE BUSINESS DAILY" is a valuable source of information to businesses in identifying products and services which individual military procurement offices are currently buying. The publication also lists proposed procurements of other federal agencies; subcontract opportunities offered by Defense prime contractors; recent contract awards, which, in turn, provide "leads" to additional subcontract opportunities; surplus sales information; and, other pertinent information on federal procurement activities.

The "COMMERCE BUSINESS DAILY" is published Monday through Friday and may be purchased on annual subscription of $175.00 1st Class and $100.00 2nd Class. Trial subscriptions are available. To order, send remittance with full mailing address to Superintendent of Documents, Government Printing Office, Washington, D.C. 20402, Telephone: 202/783-3238. Purchase order must be accompanied by payment. VISA and MasterCard are accepted. Make checks or money orders payable to Superintendent of Documents. Allow at least 6 weeks for delivery of first issue.

ADDITIONAL SOURCES OF INFORMATION

The Small Business Administration, General Services Administration, and the Department of Commerce also have field offices in many cities which are equipped to assist business firms in locating opportunities to participate in military procurement.

Local Defense activities listed in this pamphlet and field offices of other federal agencies should be the initial contact for assistance and guidance on how business firms can participate in Defense work.

Individuals visiting the Washington, D.C. area who seek assistance in federal procurement procedures may contact the offices listed below. These offices are available only for the purpose of providing information and guidance. None of these offices let contracts nor do they maintain Bidders' Mailing Lists.
